1. 29 Thomaston Rd. – Refinishing by William, LLC – Signage

William Miller was present to describe his proposal for signage on the brick section of the building. He submitted a photo with an overlay of the cream color for the brick façade showing individual black letters to read Kitchen Refinishing placed across the 19' span of the building. The letters will be 18" in height and approximately 6" in width. The lettering will be centered on the building and be indented 4' off the edges of the building on both sides. The letters will be in a block form, with the committee's preference for the more detailed font shown on the middle section of the original submission in January. The business phone number in black will be centered under the signage. Lettering and each number will be no more than 12" in height. It was also noted the building street number will be placed above the main entry door.

Motion: C. Bramley moved a favorable recommendation for the proposed signage on the brick façade of the building. Seconded: J. Peck. Motion carried unanimously.
